

This document provides a list of resources that will be used to support students during an extended District initiated physical absence from school. We understand face to face instruction provides the best opportunity to ensure content mastery, however we place great value in the proven digital resources that are shared below to act as a secondary response to instruction. The following outlines the times that students should be accessing digital resources along with additional “digital office hours” for teacher support. In addition, a list of the primary resources to access assignments is provided along with some support resources that students can use to support content mastery

For Algebra 1 and Geometry on-line instruction delivery, we will use Delta Math and Cobb textbook resources. Additionally, students will have access to PowerPoints for almost every standard. Please see link below for parents and students.

Algebra I and Geometry will register for both books due to some of the standards being moved around since the book was written. For example, Quadratics is in the Geometry book which has a lot of resources.

Department: Mathematics
 Content: Algebra 1 and Geometry
 Daily Student Work Hours: 10:30am-12:00
 Content Office Hours: 9 am- 10 am
